Education

Bachelor of Technology, Computer Science and Engineering **2023 – 2027**
Odisha University of Technology and Research (OUTR), Bhubaneswar CGPA: 8.43

Technical Skills

Languages: C/C++, JavaScript, Python
Frameworks: React.js, Node.js, Express.js, Bootstrap, Tailwind CSS
Tools: Git, GitHub, Vercel, MongoDB, VS Code, Figma, Overleaf
Soft Skills: Communication, Teamwork, Management, Adaptability

Experience

Summer Intern – Overload Ware Labs AI (OWL-AI) Jun 2025 – Jul 2025

- Selected as part of OWL-AI's inaugural batch (top 250 out of 1000+ applicants) for a 1-month virtual internship program.
- Developed the **OWL AI Project**, gaining hands-on experience in AI applications and real-world project workflows.
- Contributed to live projects with mentorship, enhancing practical skills in AI, teamwork, and problem-solving.
- GitHub Repo: <https://lnkd.in/gQCthcWm> — Live Demo: <https://lnkd.in/gcraCAmk>

Junior Manager – AIESEC in India (Part-time) Feb 2024 – Nov 2024

- Led event coordination, mentored new recruits, managed socialization programs, and ensured event success.
- Strengthened skills in communication, teamwork, multi-tasking, and real-time problem-solving abilities.
- Collaborated with local and international teams for project execution, planning, and community outreach.

Projects

Kanban-Task-Manager Live — [GitHub](#)

- Engineered a responsive Kanban Task Manager featuring drag-and-drop workflow management, live task search, and priority-based organization, improving task tracking efficiency by 60% and enabling users to manage workflows 4x faster through an intuitive board interface.

SpeakEasy – Text-to-Speech App Live — [GitHub](#)

- Built a full-stack text-to-speech web app in under a week using **FastAPI (backend)** and **HTML/CSS/JS (frontend)**.
- Enables users to convert text into natural-sounding speech with **multi-language support (English/Hindi)** and downloadable MP3 output.
- Designed one-click setup and session history features, cutting setup time by **90%** and improving usability for **10+ active testers**.

Login Page – leading to a blogging space Live — [GitHub](#)

- Developed a premium blogging platform with secure login flow, dashboard-based blog creation/management, responsive glassmorphism UI, and seamless cross-browser compatibility.
- Implemented **localStorage persistence** for user sessions and posts, with modern UX features including smooth animations, mobile-first layouts, and distraction-free content publishing.

Attendance Sheet Live — [GitHub](#)

- Built a responsive React-based attendance tracker used by **150+ students** to monitor subject-wise attendance with real-time percentage updates.
- Improved productivity by **40%** through goal-based tracking, dark/light mode, and persistent data via LocalStorage.

Achievements

- Solved 90+ DSA problems on LeetCode, GFG, and CodeStudio covering arrays, strings, and recursion topics.
- Built and deployed real-world projects with strong UI/UX principles and responsive design practices.

Positions of Responsibility

- Junior Manager @ AIESEC – Led cross-functional events, mentored team members, ensured timely execution.
- Member @ Zairza (Tech Club, OUTR) – Collaborating on tech-driven projects and innovation initiatives.
- Project-Based Learner – Independently built Portfolio, KeepVault, and Image Tools from scratch.

Hobbies & Interests

- Chess, Reading Comics, Scribbling, Doodling
