Education

Bachelor of Technology, Computer Science and Engineering,
Odisha University of Technology and Research (OUTR), Bhubaneswar

2023–2027
CGPA: 8.55

Technical Skills

Languages:	C++, JavaScript, HTML5, CSS3
Frameworks:	Node.js, Express.js, Tailwind CSS, Bootstrap
Libraries:	React.js, Socket.io, Axios
Database:	MongoDB, SQLite
Tools:	Git, GitHub, VS Code, Vercel, Render, Figma
Technologies:	REST APIs, Clerk Authentication
Core Subjects:	Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

Experience

Full Stack Engineer – Webyalaya

Jun 2026–Present

- Test application features, identify bugs, and collaborate with developers to improve functionality and user experience.
- Create UI mockups and design updates using **Figma**, translating requirements into clean and user-friendly interfaces.
- Assist in feature validation, API testing, and website improvements while collaborating with the team using Git and GitHub.

Full Stack Engineer – Coinslive.in

May 2026–Jun 2026

- Collaborated in redesigning and modernizing the platform's user interface using **React.js, HTML5, and CSS3**, improving the overall visual consistency and user experience.
- Developed responsive, user-friendly layouts with improved styling, navigation, and component structure for better usability across desktop and mobile devices.

Junior Manager – AIESEC in India

Feb 2024–Nov 2024

- Coordinated events and collaborated with cross-functional teams to ensure smooth execution.
- Mentored new members and supported team planning and onboarding activities.
- Strengthened leadership, communication, teamwork, and problem-solving skills through organizational initiatives.

Projects

E-Book Management System

Live — GitHub

- Built a full-stack e-book management system using **React.js, Node.js, Express.js, SQLite** for book management.
- Developed REST APIs, integrated **Axios** for frontend-backend communication and implemented role-based access to manage user authentication and administrative book management features.

Infinity Whiteboard

Live — GitHub

- Developed a real-time collaborative whiteboard using **Vanilla JavaScript, Vite, Node.js, Express, and Socket.io**, supporting multi-user drawing with live synchronization.
- Implemented vector drawing tools, zoom/pan navigation, remote cursor tracking, synchronized undo/redo, and region clipping using the **HTML5 Canvas API**.

Leadership & Activities

- **Junior Manager @ AIESEC in India** – Led event coordination, mentored new members, and collaborated with cross-functional teams to organize successful events.
- **Associate Class Representative (Computer Science & Engineering, OUTR)** – Served as a bridge between students and faculty, coordinated academic communication, and supported the smooth execution of class activities.
- **Member @ Zairza (Tech Club) & Cetadel (Literature Club), OUTR** – Participated in technical workshops, literary events, and collaborative activities, strengthening technical, communication, and teamwork skills.

Achievements

- Solved **200+ Data Structures and Algorithms** problems on LeetCode and GeeksforGeeks.
- Earned multiple industry-recognized certifications in AI, and Software Development.
